

# Your Task

In **pairs** you are to create an iMovie based on the effects Vietnamese migration has had on Australia.

When creating your iMovie you must refer to **at least** three of the following:

- Education
- Trade
- Economy
- Relationship to Asia
- Integration of Vietnamese culture into Australian culture in areas of celebrations, customs or traditions.

Your iMovie should be 3-7 minutes long and should incorporate pictures, audio and refer to at least one **primary** source. You should also incorporate appropriate effects and transitions so that your iMovie runs smoothly.

Before you begin working on your iMovie you must **plan** and **prepare** by creating a storyboard in your HSIE books.

Refer to the work you have done throughout this unit to help you create your iMovie. You may use books or online sources to find images.
